## Pressure Care Premium Mattress

### Multi segment foam construction:

1. Top layer - visco-elastic, gel infused, slow recovery foam forms to the body, distributing body load over a greater surface area.
2. Lower layer - medium density foam offers comfort and support
3. Sides - High density foam for support when side transferring or assisting patients out of bed

 Bacteria

 Mould

 Fluid ingress

 Vapour permeable

 Multi stretch

 Pressure relief

Flexible polyurethane fabric - multi stretch  
fluid resistant vapour permeable offering  
maximum patient comfort

Robust vapour permeable  
material on underside allows  
airflow and support to  
mattress

User weight up to 200kg

Foam side walls are notched  
to allow bend/flex at backrest  
and knee brace points

Moisture proof zip with  
waterfall cover
