Entrix 7

Low Profile Alternating Mattress Replacement

An alternating air mattress replacement system that offers a high degree of comfort and value for money.

Entrix 7 Mattress Replacement

- Sixteen 5-inch tall air cells.
- Quick release CPR – rapidly deflates the entire mattress.
- Micro-ventilated air cells – for great air circulation, optimal patient temperature regulation from shoulder to waist.
- Two way stretch coverlet – washable, fully water proof and excellent moisture permeability.
- Built in 2 inches of foam - no need for a separate mattress, easier for care staff to make beds, overall mattress height is lower.

Entrix Power Unit

- Dynamic/ Static modes.
- Adjustable weight setting.
- IPS – an integrated electronic pressure sensor for better user comfort, lower interface pressure and excellent results.
- Visual and audible alarms – for power failure, low pressure.
- Digital - easy to use/ easy to clean.

Entrix 7 Product Specification

Individual Model No.

Power control Unit – S2202-3

Mattress: SR2203-2 – Standard
SR2203-2 – Narrow

Power Input REF SR366 Entrix

AC100 – 120V/ 50 & 60 Hz

AC220 – 240V/ 50 Hz

Power Consumption

Max. 10W

Power Unit Dimension

– 29.5 x 22.5 x 12.0 cm

Mattress Dimension

King Single
– 200 x 107 x 18 cm (inflated)

Single
– 200 x 90 x 18 cm (inflated)

Narrow
– 200 x 82 x 18 cm (inflated)

Material

Power Unit
– ABS fire retardant UL
Mattress Cell – 100% nylon with TPU

lamination
Coverlet – 100% nylon with PU
backing

Maximum Weight capacity

150kg

Weight

Power control Unit – 2.5kg
Mattress Set – 5kg

Product Compliance

EN60601 – 1
EN60601 – 2
UL60601 –1
HCPCS E0277
